## Contents

---

Contents.....	2
1. Public website for the project .....	2
2. Project intranet.....	2

### 1. Public website for the project

---

The project website has been published in the address: <http://hycora.eu/>

The project website will be developed according to dissemination needs of the project. In addition to public deliverables, project and WP presentations from different events will be added after acceptance from the partners.

### 2. Project intranet

---

Project intranet has been organised using SharePoint.

The project intranet address is: <https://workspace.vtt.fi/sites/hycora>

Coordinator has given all work package leaders Member rights and most of the other persons involved in the project Visitor rights.

Coordinator has shared simplified instructions for the use SharePoint at HyCoRA SharePoint site.
